

TO: OUR 7TH & 8TH GRADE PARENTS

February 17, 2012

This letter is to send you my appreciation on how productive the meeting with you (separately) has been. After discussing with you the class results of the ITBS and STAR Testing focusing on Language Arts and Math, we are now due to have a parent meeting too with 1st Grade and 5th Grade Parents separately, following the same format. Some of the parents believe that the more frequent the meetings with the same grade level parents are, the better it becomes in terms of knowing and familiarizing with the parents of their child's friend(s).

This is just to let you know that from the meeting we had in the classroom of your child, we had spoken about 1st - **strengthening our efforts in teaching your children learn the rigor of Math and Reading**; 2nd - **coming to the HS for the Zero Math period on time**; 3rd - **offering an Algebra Course in our HS for our 7th & 8th grade students next year**, and 4th - **having a more open line of communication with our Junior High teachers & the GS Principal**.

For 8th Grade class, we also touch based on 1st - graduation requirements, 2nd - a wish list for a class legacy gift and a 3rd - continuous character formation for Class of 2012. We were not able to meet the February 14th Class jacket date as the class, Mr. Ho and myself just had the opportunity to design their jacket this week. We shall have it as a Post-Valentine gift then. Aide Hernandez, one of our PTO Board members did suggest a Jacket company that will take the student's measurement next week. This will also apply for the Academic Decathlon (decathletes & alternates) jacket. If you know of a letterman's jacket company who can deliver to the school a quality jacket with an affordable price, please call up Mrs. Ganse for the information so we can contact them at the soonest possible time. Thanks so much and many blessings always.

Miss Fidela B. Suelto

Principal

Holy Family Grade School - Glendale
